

CURRICULUM VITAE

Xiong MM, Ph.D.

Office Address :

Department of Biostatistics and Data Science
The University of Texas Health Science Center at Houston
School of Public Health
1200 Herman Pressler, Houston, TX 77030
Tel : (713) 500-9894
Fax : (713) 500-0900
E-mail : Momiao.Xiong@uth.tmc.edu

EDUCATION:

- 1993-1995 **Postdoctoral Fellows** in Computational Biology
University of Southern California
- 1990-1993 **Ph.D.** in Statistics
University of Georgia
Dissertation: Mathematical Theory of Neural Learning and its Applications to
Statistics and Molecular Biology
- 1988-1990 **M.S.** in Statistics
University of Georgia
- 1963-1968 **B.S.** in Computational Mathematics
Fudan University, Shanghai, China
- 1957-1963 Jiangxi Anyi Middle School, China

PRESENT POSITION:

Professor, Program in Genetics and Epigenetics, MD Anderson Cancer Center UTHealth Graduate School of Biomedical Sciences

Professor, Program in Quantitative Sciences, MD Anderson Cancer Center UTHealth Graduate School of Biomedical Sciences.

PROFESSIONAL EXPERIENCE

09/11-Present Professor (Tenured)

Department of Biostatistics and Data Science School of Public Health, The University of Texas Health Science Center at Houston

09/08-08/11 Associate Professor (Tenured)

Division of Biostatistics, School of Public Health, The University of Texas Health Science Center at Houston

09/07-08/08 Associate Professor

Division of Biostatistics, School of Public Health, The University of Texas Health Science Center at Houston

09/00-08/07 Assistant Professor (tenure track)

Human Genetics Center, School of Public Health, The University of Texas Health Science Center at Houston

06/97-08/00 Assistant Professor (Non-tenure track)

Human Genetics Center, The University of Texas Health Science Center, School of Public Health, Houston

01/97-05/97 Visiting Assistant Professor

Division of Epidemiology, University of Minnesota

09/95-12/96 Visiting Assistant Research Scientist

Department of Biostatistics, University of Michigan, Ann Arbor

07/93-08/95 Postdoctoral Fellow

Department of Mathematics, University of Southern California

01/88-06/93 Teaching Assistant

Department of Statistics, University of Georgia

08/86-12/87 Visiting Scholar

Department of Information Systems & Operations Management, The University of Texas at Dallas

04/84-07/86 Head of Automation Division

Jiangxi Provincial Power Bureau, Nanchang, China

08/76-03/84 Software Engineer, Head of Computer Section

Jiangxi Provincial Power Bureau, Nanchang, China

07/75-07/76 Lecturer

Department of Mathematics, Jiangxi Electric Engineering School

01/72-06/75 Acting Head of Education Section

Panzhuhua Steel Company, China

12/68-12/71 Assistant Engineer

Panzhuhua Steel Company, China

PROFESSIONAL ACTIVITIES

- 2005- The International Society for Computational Biology
- 1994- American Society of Human Genetics
- 2004- Eastern North American Region/International Biometric Society
- 1992-1997 American Statistical Association
- 2005- American Statistical Association
- 1993-1997 American Society of Neural Networks

HONORS AND AWARDS

- 2015 The first place of poster award in the UT GSBS human and molecular genetics symposium.
- 2014 The first place of poster award in the UT GSBS human and molecular genetics symposium.
The Second place of poster award in the UT GSBS human and molecular genetics symposium.
The third place of poster award in the UT GSBS human and molecular genetics symposium.
- 2013 Supervised postdoctoral fellow Futao Zhang was awarded outstanding postdoctoral fellow in meeting
- 2012 Winners of the EJHG/ESHG/NPG Award 2012
- 2011 Excellence in Research Incentive Award
- 2010 Excellence in Research Incentive Award
- 2009 Excellence in Research Incentive Award
- 2008 Excellence in Research Incentive Award
Second Place Poster Award, University of Texas at Houston Annual Research Day, 2008
- 2007 Highly Cited Researcher (Biological science)
- 2007 Excellence in Research Incentive Award
- 2006 Highly Cited Researcher (Biological science)
- 2006 Excellence in Research Incentive Award
- 2005 Excellence in Research Incentive Award
- 2004 White Magnolia Award for Promoting Academic Exchange (Bai Yulan Award), Shanghai Municipal Government
- 2003-2004 Excellence in Research Incentive Award
- 1999-2000 Excellence in Research Incentive Award
- 2001- Who's Who in America
- 1994 Best paper award, Neural Networks with Hidden Markov Process, Artificial Neural Networks in Engineering Conference, 1994, St. Louis, Missouri
- 1991 Phi Kappa Phi, University of Georgia
- 1990 Best Senior Student, University of Georgia
- 1989 Best Junior Student, University of Georgia

Research Interests

Deep leaning and causal inference, Artificial Intelligence, Precision Medicine, Big data in genomics, epigenomics and imaging, Statistical Genetics, Bioinformatics

ACADAMIC PRESENTATIONS

Invitational Presentations

1. Xiong MM, Ge Q. Liu Y and Huang X. (2019). Deep learning for estimation of individualized treatment effects with multiple sources. JSM 2019, July 27-August 1, 2019, Denver, Colorado.

2. Xiong MM. (2019). Biomarker Identification by Artificial Intelligence. 2nd International Hematologist Summit (HIS-2019), May 30-31 at Nice, France.
3. Xiong MM, Jiao R, Kiu Y, Ge Q, Chen X and Jinying Zhao. (2018). Association or Causation. 4th International Conference on Big Data and Information Analytics, December 17-19, 2018, Houston, Texas.
4. Xiong MM, Lin N, Hu Z, Jiao R and Calhoun VD. (2018). From association to causation: casual inference in imaging-genetic data analysis. ENAR 2018, March 25-28, 2018, Atlanta, GA.
5. Xiong MM. (2018). Identify disease causing paths. The first international symposium on genomics and translation medicine. June 14-17, 2018, Suzhou, China.
7. Fan R, Jiang Y, Chiu C-Y; Xiong MM, Amos CI, Weeks D, Cook RJ, Lakhali-Chaieb M, Yan Q, Chen W, Gorin MB, Conley YP, Wilson AF, Bailey-Wilson J, Francis M. (2017). Gene-Based Association Testing of Dichotomous Traits with Generalized Functional Linear Mixed Models Using Extended Pedigrees. JSM 2017, July 29-August 3, 2017. Baltimore.
8. Hu Z, Lin N, Jiao R, Wang P, Zhu Y, Zhao J, Bennett DA, Jin L and Xiong MM. (2017). Causal network analysis of big genomic, epigenomic and imaging data. Conference on Big Data and Information Analytics", September 18 - 22, 2017, the Fields Institute in Toronto, Ontario, Canada.
9. Xiong MM, Hu Z, Lin N, Zhu Y, Wang P, Zhao JY, Bennett DA, Jin L. (2016). Deep learning in multi-level causal genomic-epigenomic network analysis and its application to Alzheimer's disease studies. The 10th ICSA International Conference on Global Growth of Modern Statistics in the 21st Century, December 19-22, 2016, Shanghai, China.
10. Fang S, Luo L, Wang P, Lin N, Li D, and Xiong MM. (2016). Network-based sufficient dimension reduction and intelligent classifier for early detection of pancreatic cancer. The 10th ICSA International Conference on Global Growth of Modern Statistics in the 21st Century, December 19-22, 2016, Shanghai, China.
11. Hu P, Lin N, Ma L and Xiong MM. (2016). Smart causal machine learner that combines CT image and RNA-seq markers for cancer diagnosis and precision medicine. The 10th ICSA International Conference on Global Growth of Modern Statistics in the 21st Century, December 19-22, 2016, Shanghai, China.
12. Wang P, Lin N, Zhu Y and Xiong MM. (2016). Most powerful statistics for RNA-seq and image association analysis and its application to kidney cancer study. The 10th ICSA International Conference on Global Growth of Modern Statistics in the 21st Century, December 19-22, 2016, Shanghai, China.
13. Hu Z, Guo S, Zhu Y, Wang P, Bennett DA, Jin L, Xiong MM. (2016). Novel integrated systems approach discovers cell specific genetic-transcriptomic-methylation networks and causal pathways underlying diseases. The 10th ICSA International Conference on Global Growth of Modern Statistics in the 21st Century, December 19-22, 2016, Shanghai, China.
14. Xu K, Jin L, Xiong MM. (2016). Functional Regression Method for Whole Genome eQTL Epistasis Analysis with Sequencing Data. The 10th ICSA International Conference on Global Growth of Modern Statistics in the 21st Century, December 19-22, 2016, Shanghai, China.
15. Xiong MM. (2015). Integrative image and RNA-seq data analysis. Transcriptomics-2015. Orlando, FL, July 27-29, 2015.
16. Gene-gene interaction analysis for next-generation sequencing. ENAR, March 16-19, 2014, Baltimore, Maryland.

17. Topic contributed: Jiang J, Lin N and Xiong MM. (2014). Image RNA-seq data analysis in clouds. 2014 JSM, Boston, MA.
18. Topic contributed: Xiong MM and Yu J. (2014). New Sparse Canonic correlation analysis for construction of co-association networks with NGS data by cloud computing. 2014 JSM, Boston, MA.
19. Classification analysis of big image data. Statistical and Computational Theory and Methodology for Big Data Analysis. Feb 9-Feb 14, 2014, Calgary, AB Canada.
20. QTL and Gene-gene Interaction Analysis for Next-generation Sequencing, ENAR, March 10-13, 2013 Spring Meeting - Orlando, Florida.
21. Alternative Direction Minimization Methods for Phenotype Prediction and variable Selection. Biometrics-2013, June 10-12, Chicago.
22. (Keynote Speaker) International Conference and Exhibition on Biometrics and Biostatistics 5-7 March 2012, Omaha.
23. Genetic and Epigenetic Analysis for Next-Generation Sequencing. March 22, 2012, Department of Epidemiology, MD Anderson Cancer Center.
24. Genetic Studies of Complex Diseases in the Sequence Era. October 5, 2012. Department of Statistics, Texas A&M University.
25. Statistical Challenges Arising from Next-generation Sequencing. December, 14, 2011, Department of Bioinformatics and Computational Biology, Anderson Cancer Center.
26. Association studies for next-generation sequencing. May 30, 2011, National Institute of Mental Health.
27. Mathematical challenges in data analysis raised by next-generation sequencing. School of Mathematics Science, Fudan University, China, November 2, 2011.
28. Data analysis for next-generation sequencing. School of Finance and Statistics, East China Normal University, November 4, 2011.
29. Gene and pathway-based association studies. China-UK Statistical Genetics, Population Genetics and Genetic Epidemiology Workshop, Shanghai, China, June 25-27, 2010.
30. Implication of next-generation sequencing on association studies. China-UK Statistical Genetics, Population Genetics and Genetic Epidemiology Workshop, Shanghai, China, June 25-27, 2010.
31. Integrated genetic and epigenetic analysis in cancer studies. The Second International Conference on Statistical Genetics and Systems Biology, Kunming, China, July 22-25, 2009.
32. Dynamic Pathway Analysis, The First International Conference on Statistical Genetics and Systems Biology, Qingdao, China, June 14-16, 2007.
33. State Space Equations for Modeling Gene Networks. The First International Conference on Computational Systems Biology. Shanghai, July 20-23, 2006
34. Genetic interaction networks and regulatory networks for genetic studies of complex diseases. Computational Biology 2005 – Challenges and Visions. Shanghai, October 13-16.
35. Nonlinear approach to dissecting genetic structure of complex diseases, The International Symposium on Genomic Medicine, June 28-30, 2005. Shanghai, China.
36. A Systems Biology Approach to Genetic Studies of Complex Diseases, March 2, 2004, Yale University.
37. An example of application of bioinformatics to systems biology, Eastern Forum of Science and Technology. July 11-12, 2004, Shanghai, China.
38. Network Biology, July 18, 2004, Shanghai Second Medical University, China.

39. Differentially expressed genetic networks, the 7th World Multiconference on Systemics, Cybernetics and Informatics, July 27-30, 2003, Orlando, Florida.
40. Perspective in Systems Biology, December, 24, 2003, Fudan University, Shanghai, China.
41. Large-scale gene expression data analysis and disease diagnosis, August 26-27, 2002. International Biopharmaceutical Technology Conference, Fujian, China.
42. Gene expression-based tumor classification, December 22, 2002, Department of Statistics, Beijing University, China.
43. Bioinformatics and genomic science research, December, 19, 2001, National Genomic Center at Shanghai, China.
44. Generalized T2 test for whole genome linkage disequilibrium profile analysis, May 23-26, 2001, International conference for mapping complex disease genes, Changsha, China.
45. Biomarker Identification by feature selection. May 21, 2001, Institute of System Science and Mathematics, Chinese Academy of Science, Beijing.
46. Advances in Bioinformatics, May 27, 2001, Department of Genetics, Fudan University, China.
47. Cancer functional genomic analysis, May 30, 2001, Zhejiang University, Hangzhou, China
48. Mapping complex trait loci. Feb. 3, 2000, Workshop at NIH.
49. Neural networks for gene expression based tumor classification, Feb. 21, 2000, Division of Biostatistics, Saint Louis Washington University, Saint Louis, Missouri.
50. Extent of linkage disequilibrium in the modern population and its implications in SNP mapping: How many SNPs are needed for disease gene mapping? March 7, 2000, National Genome Research Institute, Washington, DC.
51. Gene selection in gene expression based tumor classification, April 23, 2000, Department of Computer Science, University of South West Louisiana.
52. Linkage disequilibrium mapping for complex disease, May, 2000, National Institute of Dental and Craniofacial Research Genetics Work Group.
53. Microarray and tumor classification, June 29, 2000, Darlian Institute of Chemistry, Darlian, China.
54. Combined linkage and linkage disequilibrium, July 4, 2000, Department of Statistics Beijing University, China.
55. Microarray and tumor diagnosis, July 5, 2000, Beijing General Hospital, Beijing, China.
56. Genomic circuits and cardiac diseases, July 6, 2000, Chinese Academy of Medical Science, Beijing, China.
57. Pathway identification, July 10, 2000, Chinese Institute of Biochemistry, Shanghai, China.
58. Statistical and computational methods for gene expression based tumor classification, Jan. 9, 2000, Department of Mathematics, University of Southern California, Los Angeles.
59. Linkage and linkage disequilibrium analysis for genetic studies of complex diseases, April, 1999, Chinese Academy of Medical Science, Beijing, China.
60. Advances in cancer genomics, April, 1999, Beijing Institute of Cancer, Beijing, China.
61. Advances in plant genetics, April, 1999, Institute of Plant, Chinese Academy of Science, Beijing, China.
62. Functional genomics in plant science, August, 1999, Shanghai Institute of Plant Physiology, Chinese Academy of Science, Shanghai, China.
63. Linkage disequilibrium based regression methods for mapping quantitative trait loci, August, 1999, Institute of Genetics, Fudan University, China.

64. Statistical analysis of mapping quantitative trait loci, February, 1997, Department of Statistics, Columbia University, New York.
65. Linkage disequilibrium for fine scale mapping, March, 1997, Department of Biology, Georgia Tech, Atlanta, Georgia.
66. Fine-scale mapping: theory and application, September, 1996, McGill University, Canada.
67. Fine-scale mapping of quantitative trait loci, September, 1996, University of Montreal, Canada.
68. Strategy for mapping complex trait loci, July, 1996, Sequana Therapeutics, Inc., La Jolla, California.

Presentations

1. Xiong MM, Liu Y, Li Z, Ge Q, Lin N. (2019). Intelligent algorithms for genetic-imaging data analysis. 2019 Annual ROSMAP Investigator Meeting. April 14-16, Chicago.
2. Liu Y, Ge Q, Lin N, Peng WJ, Jiao R, Wu X, and Xiong MM. (2018). Image Segmentation via deep learning and causal inference. JSM2018, July 28 - August 2, 2018, Vancouver, Canada.
3. Lin N, Wang P, Zhu Y, Zhao J, Calhoun VD, Xiong MM. (2018). Big Causal Network Analysis of Imaging and Genomic Data. ENAR 2018, March 25-28, 2018, Atlanta, GA.
4. Lin N, Hu Z, Jiao R, Luo L, Calhoun DV and Xiong MM. (2017). Casual inference in imaging-genetic data analysis. ASHG 2017, October 17-21, 2017, Orlando, Florida
5. Lin N and Xiong MM. (2017). Sparse Dynamic Bayesian Network and its Application to Longitudinal Genetic-Imaging Data Analysis. Rice Data Science Conference, 9-10, 2017, Houston, Texas.
6. Jiao R, Hu Z, Xiong MM. (2017). Causal Inference Models for Large-Scale Gene Regulatory Network Analysis. Rice Data Science Conference, 9-10, 2017, Houston, Texas.
7. Xiong MM. (2016). Wearable Computing for Fully Automated Myocardial Infarction Classification. 8th International Conference on Bioinformatics and Computational Biology (BICoB). April 4-6, Las Vegas, Nevada, USA.
8. Ma L, Lin N, Amos CI and Xiong MM. (2016). A General statistic framework for genome based disease risk prediction. Translational Genomics. Feb 28-March 2, 2016, Houston, TX.
9. Lin N, Wang P, Zhu Y, Zhao J, Calhoun VD, Xiong MM. (2016). Integrative Large-scale Causal Network Analysis of Imaging and Genomic Data and Its Application in Schizophrenia Studies. Translational Genomics. Feb 28-March 2, 2016, Houston, TX.
10. Hu Z, Wan P, Zhu Y, Zhao J, Xiong MM. (2016). A novel causal methylation network approach to Alzheimer's disease. Translational Genomics. Feb 28-March 2, 2016, Houston, TX.
11. Lee DY, Hanis C, Bell GI, Aguilar DA, Redline S, Below J and Xiong MM. (2015). Genetic studies of physiological traits with their application to sleep apnea. 2015 JSM, Seattle, August 8-13, 2015.
12. Lin Nan, Wang P, Zhu Y and Xiong MM. (2015). Structure Equation Models and Integer Programming for Joint Imaging and Genomic Data analysis and its Application to Kidney Renal Clear Cell Carcinoma
13. Xiong MM. (2014). Integrate genomic, epigenomic, image, physiological traits, metabolites and clinical phenotype analysis and cloud computing. Department of Biostatistics, University of Texas School of Public Health. Oct 24, 2014.
14. Lin N, Jiang J, Guo S, Yu X, Ma L and Xiong MM. (2014). A Novel Scheme for the Classification Analysis of Big Image Data Based on Functional Principle Component Analysis, matrix completion and Sufficient Dimension Reduction. 2014 JSM, Boston, MA.

15. Li L and Xiong MM. (2014). An Ordinary Differential Equation Model for Gene Regulation with RNA-seq Data. 2014 JSM, Boston, MA.
16. Zhang, F, Boerwinkle E and Xiong MM. (2013). Epistasis analysis for quantitative trait with next-generation sequencing data (Platform). 63th annual meeting of The American Society of Human Genetics. October 22-26, 2013, Boston, Massachusetts.
17. Zhao J, Zhu Y and Xiong MM. (2013) Gene-gene interaction analysis for next-generation sequencing (Platform). 63th annual meeting of The American Society of Human Genetics. October 22-26, 2013, Boston, Massachusetts.
18. Family-based association studies for next generation sequencing. 30 Years of Computational Biology at USC. March 30-April 1, 2012. Los Angeles, California.
19. Quantitative Trait Locus (QTL) Analysis for Next-Generation Sequencing with the Functional Linear Models (Platform). 62th annual meeting of The American Society of Human Genetics, Nov 6-10, 2012, San Francisco, California.
20. The Smoothed Functional Principal Component Analysis for Pathway Analysis with Next-Generation Sequencing Data (Platform). 62th annual meeting of The American Society of Human Genetics, Nov 6-10, 2012, San Francisco, California.
21. Mixed Functional Linear Model for Sequence-based Quantitative Trait Association Studies Unifying Population and Family Study Designs (Platform). 62th annual meeting of The American Society of Human Genetics, Nov 6-10, 2012, San Francisco, California.
22. Population structure analysis for next-generation sequencing. 2011 IEEE World Congress on Engineering and Technology. Shanghai, China. October 28-November 2, 2011,
23. A novel genome continuum model for sequence-based association studies. 2010 Joint Statistical Meetings, July 31-August 5, 2010, Vancouver, Canada.
24. Association Studies for Next-Generation Sequencing. 60th annual meeting of The American Society of Human Genetics, Nov. 2-6, 2010, Washington DC.
25. Meta-analysis and Network analysis of five gene expression data sets in ovarian cancer. The Third International Joint Conference on Computational Sciences and Optimization (CSO 2010). May 28-31, 2010, Yellow Mountain, China.
26. Genome-wide association studies of copy number variation in Glioblastoma. The 4th International Conference on Bioinformatics and Biomedical Engineering (iCBBE 2010), June 18-20, 2010, Cheng Du, China.
27. Genome-wide Gene and Pathway Analysis. 59th annual meeting of The American Society of Human Genetics, Oct. 20-24, 2009, Honolulu.
28. Genome-wide interaction analysis of coronary artery disease. 59th annual meeting of The American Society of Human Genetics, Oct. 20-24, 2009, Honolulu.
29. Information Geometry, Gene-Gene, Gene-Environment Interaction, and Pathway Association. 2008 Joint Statistical Meetings, Colorado, August 3-7, 2008.
30. Composite Measure of Linkage Disequilibrium for Testing Interaction between Unlinked Loci, The 15th International Conference of Forum for Interdisciplinary Mathematics on Interdisciplinary Mathematical & Statistical Techniques, Shanghai, China May 20-23, 2007.
31. Mutual information for detection of gene-gene interaction. The 15th International Conference of Forum for Interdisciplinary Mathematics on Interdisciplinary Mathematical & Statistical Techniques, Shanghai, China, May 20-23, 2007.

32. Do Genetic Networks Obey Kirchhoff's and Ohm's Laws? The IASTED International Conference on Computational Systems Biology. November 13-14, 2006, Dallas.
33. Genetic Interaction Networks in Association Studies of Complex Diseases. The 2006 Joint Statistical Meeting, August 6-10, Seattle, Washington.
34. State-space approach to modeling dynamics of gene regulation in networks. 2005 International Conference on Bioinformatics. September 22-24, Busan, Korea.
35. Nonlinear Tests for Categorical Data. ENAR, Austin Texas, March 20-23, 2005.
36. Systems Biology Approaches to Genetic Studies of Complex Diseases. Pathway analysis for Target and Compound Evaluation. San Francisco, CA, April 20-22, 2005.
37. Generalized Circuit Analysis of Biological Networks. 2004 International Conference on Complex Systems, Boston, May 16-21, 2004.
38. Statistical model for function valued traits. Genetic Analysis of Complex Diseases & Human Population, September, 19-21, 2003, Chicago, Illinois.
39. Modeling and identification of genetic networks. ASHG 52th Annual Meeting, Baltimore, 2002.
40. Randomly distributed recombination may generate block-like pattern of linkage disequilibrium: An act of genetic drift. ASHG 52th Annual Meeting, Baltimore, 2002.
41. Differentially regulated genetic networks. 2002 NCRB Bioinformatics Conference. September 27-29, 2002. Boston.
42. The effect of ascertainment bias on estimates of linkage disequilibrium. ASHG 51th Annual Meeting, San Diego, 2001.
43. Dynamic models for mapping quantitative trait with time-dependent genetic effect. ASHG 51th Annual Meeting, San Diego, 2001.
44. Structural equation models for pathway identification. Oncogenomics Conference. January 25-27, 2001, Tucson, Arizona.
45. Population genomic models and their applications to genetic studies of complex traits. 2001 Joint Statistical Meetings. August 5-9, 2001. Atlanta, Georgia.
46. Linkage and association studies of QTL for nuclear families by mixed models. 2001 Joint Statistical Meetings. August 5-9, 2001. Atlanta, Georgia.
47. Multiple trait-locus model for quantitative trait analysis, 27th Annual Meeting of the Texas Genetics Society, March 23-25, 2001, Houston.
48. Linkage disequilibrium mapping of quantitative trait loci: multiple trait analysis, 27th Annual Meeting of the Texas Genetics Society, March 23-25, 2001, Houston.
49. Molecular genetic profiling of renal cell carcinoma as an alternative to current histopathologic classification systems. 27th Annual Meeting of the Texas Genetics Society, March 23-25, 2001, Houston.
50. The haplotype disequilibrium test for genome-wide screen: Its power and study design. an. 2000. Pacific Symposium of Biocomputing 2000. Maui, Hawaii.
51. Fine-Scale Mapping of Quantitative Traits Loci by Interval Mapping in Human Population. At ASHG 50th Annual Meeting, Philadelphia, Oct.3-7, 2000.
52. Linkage Disequilibrium mapping of quantitative trait loci: multiple trait analysis. ASHG 50th Annual Meeting, Philadelphia, Oct. 3-7, 2000.
53. Single Nucleotide Polymorphisms (SNPs) From 38 Plasmodium falciparum transporters and their roles in drug resistances. ASTMH 49th Annual Meeting, Houston, TX. Oct. 29-Nov. 2.

54. Gene expression in myositis biopsies. 64th Annual Scientific Meeting of Rheumatology, October 29 - November 2, Philadelphia.
55. Gene expression profile of muscle biopsies from patients with inflammatory myopathies. 64th Annual Scientific Meeting of Rheumatology, October 29-November 2, Philadelphia.
56. Expression of autoantigen genes is selectively and specifically altered in dermal fibroblasts of systemic sclerosis patients. 64th Annual Scientific Meeting of Rheumatology, October 29-November 2, Philadelphia.
57. Gene expression based tumor classification, IBC's 6th Annual Biochip Technologies Conference, 1999, Nov. 2-5, Berkeley, CA.
58. The haplotype disequilibrium test: A nonparametric haplotype based method for the genetic mapping of complex traits. 49th Annual Meeting of the American Society of Human Genetics, Oct. 19-23, 1999, San Francisco, CA.
59. Mapping QTL by linkage disequilibrium. Joint Statistical Meetings, August 9-13, 1998, Dallas, Texas.
60. Linkage disequilibrium based regression: A method for mapping quantitative trait loci in humans. 48th Annual Meeting of the American Society of Human Genetics, Oct. 27-31, 1998 Denver, Colorado.
61. Biallelic markers in genetics studies of human diseases: their power, accuracy and density in population-based linkage analyses. 47th Annual Meeting of the American Society of Human Genetics, 1997.
62. Modeling the population dynamics of simple sequence repeats. 46th Annual Meeting of the American Society of Human Genetics, 1995.
63. Neural Networks with Hidden Markov Processes. Artificial Neural Networks in Engineering Conference, Nov. 13-16, 1994, St. Louis.
64. Weighted neural network models for nonlinear regression with fixed and random effects. World Congress on Neural Networks, June 5-9, 1994, San Diego.
65. An O (n³) Neural Network Model for Linear Programming. World Congress on Neural Networks, Portland, July 11-15, 1993.
66. A neural network model based on differential-algebraic equations for nonlinear programming, IEEE International Conference on Neural Networks, San Francisco, March, 28-April 1, 1993.
67. Hybrid Kohonen self-organizing neural network and multi-layer neural network model for pattern recognition and nonlinear, artificial neural networks in Engineering Conference, Nov. 15-18, 1992, St. Louis.

ACTIVE GRANTS

- | | |
|-------------------|--|
| Investigator (5%) | Metabolic Signatures Underlying Cardiac Function for Heart Failure in Multi-Ethnic Populations
NIH 04/01/2018 - 06/30/2021
Cost: 3,068,499 |
| PI (5%) | Trans-Omics Integration of Multi-Omics Studies for Male Osteoporosis.
Tulane U/NIH
11/01/2019 - 03/31/2022
Cost: 49,898 |
| Investigator (5%) | Therapeutic target discovery in ADSP data via comprehensive whole genome analysis incorporating ethnic diversity and systems approaches.
NIH |

09/30/2018 - 08/31/2023

Total Cost: \$414,197.00

Mentor Training Grant Program in Biostatistics at UTHSC – SPH

NIH

07/01/2016 - 06/30/2020

PENDING GRANTS

PI (50%)

Artificial Intelligence for Individualized Treatment Effect Estimation in Cancer

NIH

12/01/2020 - 08/31/2025

Total Cost: \$3,093,204.00

SUBMITTED, BUT NOT FUNDED

Co-PI

Reveal the interplay between tumor, host immune response and melanoma patient outcome

NIH

04/01/2020 - 03/31/2025

Total Cost: \$764,035

Co-PI

Dissecting tumor-immune cell interactions in melanoma Progression

NIH

Total cost: \$142,265.00

04/01/2020 - 03/31/2025

Principal Investigator (50%) Artificial Intelligence for Computational Genomics

NIH

Total Cost: 3,849,276

07/01/2019 - 06/30/2024

Co-PI (25%)

Integrative Trans-Species Multi-Omics Studies to Enhance Therapeutics Development for Healthy Aging in Humans

NIH

Total Cost: 1,707,249

07/01/2019 - 06/30/2024

Principal Investigator (60%) R35GM127039

Deep learning and causative inference in heterogeneous populations

Total Cost: \$3,077,680.00

05/01/2018 - 04/30/2023

Investigator

The Serum Metabolome and Successful Aging

NIH

Total Cost: \$2,602,477.00

04/01/2019 - 03/31/2023

Investigator (5%) Metabolomic Predictors of Heart Failure in a Biracial Population
NIH
Total Cost: \$2,453,453
07/01/2017 - 06/30/2021

Investigator (5%) Metabolic Signatures Underlying Cardiac Function for Heart Failure in Multi-Ethnic Populations
NIH
Total Cost: 3,129,802
04/01/2018 - 03/31/2022

Principal Investigator (40%) Deep Genetic Analysis of Complex Disease
Templeton FOUNDATION
Total Cost: \$567,129.00
01/01/2017 - 12/31/2019

Principal Investigator (40%) Deep causal network analysis for precision medicine
NIH
Total Cost: \$1,302,938.00
04/01/2017 - 03/31/2020

Investigator (15%) Multi-ethnic Pleiotropic Gene Mapping for Alcohol and Nicotine Co-addiction
NIH
04/01/2017 - 03/31/2021

Principal Investigator (30%) 1R01CA206141-01
Combined Image and Biomarker Approach to Early Detection of Pancreatic Cancer
NCI
Total Costs: \$3,595,210.00
04/01/2016 - 03/31/2021

Principal Investigator (40%) Deep Genetic Analysis of Complex Disease
Templeton FOUNDATION
Total Cost: \$567,129.00
01/01/2017 - 12/31/2019

Principal Investigator (40%) Deep causal network analysis for precision medicine
NIH
Total Cost: \$1,302,938.00
04/01/2017 - 03/31/2020

Investigator (15%) Multi-ethnic Pleiotropic Gene Mapping for Alcohol and Nicotine Co-addiction

NIH
04/01/2017 - 03/31/2021

Principal Investigator (40%) 1R01MH109884-01
Causal Psychiatric Networks for Integrative Genomics, Epigenomics,
Transcriptomic, Imaging and Phenotype Data Analysis
NIH
Total Costs: \$3,157,631.00
03/01/2016 - 02/28/2021

Principal Investigator (30%)
Causal Networks for Integrative Genomics, Transcriptomes', Imaging and
Phenotype Data Analysis
NIH
Total Costs: \$1,104,048.00
09/01/2015 - 08/31/2018

Principal Investigator (40%)
Gene-gene and Gene-environment Interaction Analysis of Multiple Complex
Traits
NIH
Total Costs: \$1,572,640.00
01/01/2016 - 12/31/2020

Principal Investigator (30%) 1 R01 CA195601-01
Combined Image and Biomarker Approach to Early Detection of Pancreatic
Cancer.
NCI
Total Costs: 2,382,428
04/01/2015-03/31/2020

Principal Investigator (15%) GRANT11555208
Point of Care Screening and Diagnosis of Liver Cancer in Chinese
Population
NCI
Total Cost: \$3,999,995
07/01/2014 - 06/30/2019

Co-Investigator (10%) 1P01GM09964301A1 (Boerwinkle)
12/01/2012 - 11/30/2107
NIH / U of Michigan
\$487,037
Genomic Analysis in a Super-Exponentially Expanding Population

Project 2: Strategies for Identifying Regions of DNA Sequence that Influence Phenotypic Variation in Rapidly Expanding Populations

This project will modify, test and apply analytic methods that will be needed to relate the burgeoning whole-genome sequence data to predict and understand human health and disease. These methods are necessary for fully realizing the benefits of the Human Genome Project in medicine and public health.

Co-Investigator (10%) Integrating genomics with GWAS to discover risk factors to schizophrenia
VIRGINIA COMMONWEALTH U

Total costs: \$57,105

09/01/2012 - 08/31/2015

Co-Principal Investigator (25%) Multi-dimensional Data Reduction and Integration in Psychiatric Disorders.

Total Cost: \$785,361

04/01/2012 - 03/31/2015

Co-Investigator The Human Genome Sequencing Center

Total Cost: \$2,912,641

12/01/2011 - 11/30/2015

Principal Investigator of Subcontract (10%)

Integration of Functional Studies with GWA for Smoking Behaviors

Total Cost: \$434,055

02/01/2012 - 01/31/2017

Principal Investigator of Subcontract (10%)

Aberrant DNA methylation as a Mechanism of Resistance in ALL

Total Cost: \$394,858

10/01/2011 - 09/30/2016

PAST GRANTS

Principal Investigator (40%) 1R01GM104411-01

Unified Statistical Methods for Sequence-Based Association Studies.

NIGMS

Total Cost: \$1,737,913

04/01/2013-01/31/2017

Principal Investigator (30%) 5R01HL106034-02 (0008215)

Statistical Methods for Finding Missing Heritability

NHLBI

Total Costs: \$ 1,582,967

1/10/2011 - 12/31-2014

Subcontract Principle Investigator (5%) 1R01 MH101054 (CHEN & KENDLER)

Understanding the genetic architecture of schizophrenia in Chinese population
NIMH

Total Costs: \$599,933

08/01/2013-07/31/2016

Investigator (5%) 2 U54 HG003273-09

The Human Genome Sequencing Center

NIH

Total Costs: \$1,249,377

11/01/2011-10/31/2015

Co-Investigator (15%) 1U01HG005728-01

Detecting Natural Selection for the 1000 Genomes Dataset

NIH – National Human Genome Research Institute

Total Costs: \$777,305

5/28/10 - 4/30-2012

Principal Investigator (30%): 1R01AR057120-01

Network Approach to GWAS of Rheumatoid Arthritis (RA), Ankylosing
Spondylitis (AS) and Psoriasis.

NIAMS

Total Costs: \$556,353

09/01/2009 -08/31/2011

Principal Investigator (25%) P01 AR052915-01A1

Genetics and Ankylosing Spondylitis (AS) Pathogenesis

Project 4: Analysis of Genetic-Environmental Networks in Spondyloarthritis

National Institute of Health

Total Costs: \$7,417,127

07/01/2006-06/30/2011

Co-Investigator (15%) NIAMS P50 AR054144-01 COR

National Institute of Health

Center of Research Translation in Systems Sclerosis

National Institute of Health

Total Costs: \$7,382,620

09/01/2006 - 08/31/2011

Co-Investigator (5%) 1 R01 HL084099-01A1

National Institute of Health

Genes of the CYP450-Derived Eicosanoid Pathway in Subclinical

Atherosclerosis
Total Costs: \$2,872,877
1/1/2007 - 03/30/2011

Co-Investigator (5%) PR064803
Department of Defense
The Integrative Studies of Genetic and Environmental factors in Systemic Sclerosis
Total Costs: \$928,125
1/1/2007 - 03/30/2011

Co-Investigator (40%): R01 HL74735-01
National Institute of Health
Antihypertensive Pharmacogenomics
Total Costs: \$1,162,816
04/01/2004 - 03/30/2008

Consultant: 1R03AR050517-01A2
Study of SPARC in scleroderma skin fibroblasts.
National Institute of Health
Total Costs: \$223,062
4/1/05 - 3/31/08

Co-Investigator (10%): 5P50-AR44888-03
Mapping Scleroderma Susceptibility Genes in the Choctaw
National Institute of Health
Total Costs: \$4,338,583
09/16/2001 - 09/14/2006

Co-Investigator (15%): U01-HL054481
Genetic Determinants of High BP in Three Racial Groups
(Network)
National Institute of Health
Total Costs: \$ 437,846
09/05/1995 - 06/30/2005

Co-Investigator (5%): 5 R01 HL069125-03
Gene-Environment Interactions and Stroke Susceptibility.
National Institute of Health
Total Costs \$422,749
09/30/2001 - 09/29/2005

Principal Investigator of subcontract to UT-SPH (50%):

NIH R01 GM5651-03
Statistical Models in Population and Quantitative Genetics
National Institute of Health
Total Cost: \$423,791
01/01/1997 - 12/31/2001

Principal Investigator of subcontract to UT-SPH (15%):

NIH ES09912
Linkage and Linkage disequilibrium for Quantitative Traits
National Institute of Health
Total Cost: \$1,267,766
01/01/1999 - 12/31/2001

Co-Investigator (20%): NIH HG0 1833-02 A1

Construction and Application of a U. S. Admixture Map
National Institute of Health
Total Cost: \$482,961
09/24/1999 - 05/31/2002

ACADEMIC ACTIVITIES

COURSES TAUGHT

2020

Spring PH 1998L - Special Topics in Biostatistics. Advanced analytical course in data science. (Course organizer and Instructor).
Individual Study in Biostats (1), PH 1999-1745
Dissertation Research (5), PHD 9999-1745.

Summer PHWM 1690L - Intro Biostatistics in PH (Instructor)
Dissertation Research (1), PHD 9999-1745

Fall Introduction to Genomics and Bioinformatics, PH1980L, GS110032 (Course organizer and Lead Instructor)
Statistical Genetics, PH1986L, GS110072 (Lecturer).
Dissertation Research (1), PHD 9999-1745

2019

Spring Computational Systems Biology and Machine Learning, PHD 1998L (Course organizer and Instructor)
Population Genetics, PH1984L, GS110042 (Lecturer)
Individ Study in Biostats (3), PH 1999-1745
Dissertation Research (2), PHD 9999-1745.

Summer Individ Study in Biostats (1), PH 1999-1745
 Dissertation Research (2), PHD 9999-1745.

Fall Introduction to Genomics and Bioinformatics, PH1980L, GS110032 (Course
 organizer and Lead Instructor)
 Statistical Genetics, PH1986L, GS110072 (Lecturer).
 Individ Study in Biostats (3), PH 1999-1745
 Dissertation Research (5), PHD 9999-1745.

2018

Spring PHD 1998L-125. Machine Learning (Special Topics in Biostats) (Course
 Organizer)
 Population Genetics, PH1984L, GS110042 (Lecturer).
 Individ Study in Biostats (3), PH 1999-1745
 Dissertation Research (2), PHD 9999-1745.
 Biostatistics Seminar, PHD 1988-125

Fall Introduction to Genomics and Bioinformatics, PH1980L, GS110032 (Course
 organizer and Lead Instructor)
 Statistical Genetics, PH1986L, GS110072 (Lecturer).
 Dissertation Research, PH9999-413 (2)
 Thesis Research, PH 9998-304 (1)

2017

Spring Population Genetics, PH1984L, GS110042 (Lecturer).
 Dissertation Research (2), PHD 9999-1745.
 Individual Studies in Biostatistics (1), PH 1999-110
 Dissertation Research, PH9999-413 (1)
 Thesis Research, PH 9998-304 (1)
 Culminat Exp/Thesis (1), PH 9998-304
 Biostatistics Seminar, PHD 1988-125

Summer Individual Studies in Biostatistics (1), PH 1999-110

Fall Introduction to Genomics and Bioinformatics, PH1980L, GS110032 (Course
 organizer and Lead Instructor)
 Statistical Genetics, PH1986L, GS110072 (Lecturer).
 Dissertation Research, PH9999-413 (2)
 Thesis Research, PH 9998-304 (1)

2016

Spring

Individual Studies in Biostatistics, PH 1999-110 (1)
Dissertation Research, PH9999-413 (1)
Thesis Research, PH 9998-304 (1)

Summer

Special Topics in Biostatistic, PH 1998L-500 (Course organizer and Lecturer)

Fall

Introduction to Genomics and Bioinformatics, PH1980L, GS110032 (Course organizer and Lead Instructor)
Statistical Genetics, PH1986L, GS110072 (Lecturer).
Dissertation Research, PH9999-413 (2)
Thesis Research, PH 9998-304 (1)

2015

Fall

Introduction to Genomics and Bioinformatics, PH1980L, GS110032 (Course organizer and Lead Instructor)
Statistical Genetics, PH1986L, GS110072 (Lecturer).
Individual Studies in Biostatistics, PH 1999-110 (1)
Dissertation Research, PH9999-413 (1)

Spring

Population Genetics, PH1984L, GS110042 (Lecturer)
Individual Studies in Biostatistics, PH 1999-110 (4)
Dissertation Research, PH9999-413 (1)
Thesis Research, PH 9998-304 (4)

Summer

Individual Studies in Biostatistics, PH 1999-110 (1)

2014

Fall

Introduction to Genomics and Bioinformatics, PH1980L, GS110032 (Course organizer and Lead Instructor)
Statistical Genetics, PH1986L, GS110072 (Lecturer).
Individual Studies in Biostatistics, PH 1999-110 (2)
Thesis Research, PH 9998-304 (2)
Dissertation Research, PH9999-413 (4)
Practicum (Practicum), PH 9997-170 (1)

Spring

Population Genetics, PH1984L, GS110042 (Lecturer)
Individual Studies in Biostatistics, PH 1999-110 (5)
Dissertation Research, PH9999-413 (4)

Summer Individual Studies in Biostatistics, PH 1999-110 (1)
Dissertation Research, PH9999-413 (2)
Practicum (Practicum), PH 9997-170 (1)

2013

Fall Introduction to Genomics and Bioinformatics, PH1980L, GS110032 (Course organizer and Lead Instructor)
Statistical Genetics, PH1986L, GS110072 (Lecturer).
Thesis Research, PH 9998-304 (1)
Individual Studies in Biostatistics, PH 1999-110 (2)
Dissertation Research, PH9999-413 (5)

Summer Application of advanced multivariate techniques to genomic analysis, PH 1998 L-150 (Course organizer and Instructor)
Individual Studies in Biostatistics, PH 1999-110 (1)
Dissertation Research, PH9999-413 (2)

Spring Population Genetics, PH1984L, GS110042 (Lecturer)
Individual Studies in Biostatistics, PH 1999-110 (3)
Dissertation Research, PH9999-413 (1)

2012

Fall Introduction to Genomics and Bioinformatics, PH1980L, GS110032 (Course organizer and Lead Instructor)
Statistical Genetics, PH1986L, GS110072 (Lecturer)
Individual Studies in Biostatistics, PH 1999-110 (3)
PH 9998 - 304 Culminating Experience/Thesis Research (2)

Spring Introduction to Computational Systems Biology, PH1998L (Course organizer and Lead Instructor)
Population Genetics, PH1984L, GS110042 (Lecturer)
Individual Studies in Biostatistics, PH 1999-110 (1)
Culminat Exp/Thesis RSCH, PH9998-304 (1)
Dissertation Research, PH9999-413 (2)

Summer

2011

Fall Introduction to Genomics and Bioinformatics, PH1980L, GS110032 (Course

organizer and Lead Instructor)
Statistical Genetics, PH1986L, GS110072 (Lecturer)
Individual Studies in Biostatistics, PH 1999-110 (2)
Dissertation Research, PH9999-413 (1)
Culminat Exp/Thesis RSCH, PH9998-304 (2)

2011

Summer

Application of advanced multivariate techniques to genomic analysis, PH 1998 L-150 (Course organizer and Instructor)
Culminat Exp/Thesis RSCH, PH9998-304 (1)

Spring

Population Genetics, PH1984L, GS110042 (Lecturer)
Culminat Exp/Thesis RSCH, PH9998-304 (2)
Dissertation Research, PH9999-413 (2)

2010

Fall

Introduction to Genomics and Bioinformatics, PH1980L, GS110032 (Course organizer and Lead Instructor)
Statistical Genetics, PH1986L, GS110072 (Lecturer)
Research in Biomedical Science, GS000520
Practicum, PH9997288
Dissertation Research, PH9999-413

2010

Summer

Data Mining in Genetic Epidemiology, PH1998L and GS110053 (Co-Coordinator, Lecturer)
Dissertation Research, PH9999
Dissertation Research, PH9999
Dissertation Research, PH9999
Research in Biomedical Science, GS000520
Research in Biomedical Science, GS000520

Fall

Introduction to Genomics and Bioinformatics, PH1980L, GS110032 (Lecturer) Tutorial
Research Experience, GS000514.

GRADUATE STUDENTS/POSTDOCTORAL FELLOW SUPERVISING

Graduate School of Biomedical Sciences (GSBS) and School of Public Health

Postdoctoral Fellow

1. Shan Liu 12/31/18-12/31/19
2. Hong Zhang 08/2015-08/2016
3. Azam Yazdani, Research Associate, Brigham and Women's Hospital, Harvard Univ 04/2013-05/2014
4. Futao Zhang, Clinical Bioinformatician, Neuroscience Research Australia 08/2012-12/2013
5. Dan Xie, Associate Professor, Hubei University of Chinese Medicine 04/2011-05/2012
6. Xuesen Wu 12/2009-06/30/2010
Professor, Chair of Department of Public Health, Bengbu Medical College at Bengbu
7. Xiangzhong Fang, Professor, Chair of Dept of Biostatistics, Beijing University, China
01/2008-07/2008 01/2000-01/2001
8. Winston Wa Shing Lau 07/2007-10/2007
9. Jinying Zhao 05/2005- 12/2005
Professor, Department of Epidemiology, University of Florida
10. Jun Li 01/2001-01/2003

Research Fellow

1. Wen-jia Peng 07/2017-06/2018
2. QiyangGe 09/2017-12/2019
3. Zhouxuan Li 03/2018-04/2-19
3. Zixing Hu, Postdoctoral Fellow, Fudan Univesity 10/2015-06/2017
4. Jingqi Zhou, Postdoctoral Researcher, University of Georgia 11/2015-03/2016
5. Panpan Wang 09/2013-12/2015
6. Shicheng Guo 01/2013-03/2015
Principal Scientist, Janssen R&D, Johnson and Johnson, Philadelphia, PA
7. Keling Xu 08/2014-08/2015
8. Minyi Chen 04/2012-06/2013
9. Yan Cui 05/2011-12/2012
10. Yun Zhu 12/2009-08/2011
11. Shengjun Hong 09/2010-08/2012

12. Pengfei Hu	09/2009-08/2011
Research Associate, School of Life Science, Fudan University, China	
13. Hoicheong Siu	01/2010-01/2012
Postdoctoral Fellow, Hong Kong University	
14. Hua Dong	09/2007-10/2009
15. Xiaodian Sun	10/2008-04/2009
Associate Scientist, University of Miami	
16. Qian Hao	11/2006-06/2007
17. Wuju Li	1998-2000
Professor, Center of Bioinformatics, Institute of Basic Medical Science, China

Primary PhD Student Advisor

<i>Name</i>	<i>Department</i>	<i>Degree</i>	<i>Role</i>	<i>Graduation</i>
1. Lerong Li	Biostatistics	Ph. D.	Advisor	08/2013-12/2014
Dissertation Title: Dynamic Model and its Applications to Molecular and Physiological Analysis. Novartis.				
2. Dong-Yang Lee	Biostatistics	Ph. D.	Advisor	02/2013-04/2015
Dissertation Title: Functional linear model with functional response and predictor for temporal quantitative traits in sleep apnea Biostat Solution, Washington DC, MD				
3. Long Ma	Biostatistics	Ph. D.	Advisor	09/2011-04/2015
Dissertation Title: general statistics framework for disease risk prediction by genetic variants, gene expression and image Gilead Sciences, Inc, Foster City, CA				
4. Mohammad Rahman	Biostatistics	Ph. D.	Advisor	08/2013-04/2015
Dissertation Title: Sparse structural equation models for genotype-phenotype networks Bristol Myers Squibb Pharmaceutical located in Princeton, New Jersey.				
5. Getie Zewdie	Biostatistics	Ph. D.	Advisor	05/2013-05/2014
Dissertation Title: Applied differential equations to classify myocardial infarction disease from electrocardiography (ECG) signals. FDA				
6. Aaya Nassar	Biological Science	Ph.D.	Advisor	09/2004-08/2012
7. Li Luo	Biostatistics	Ph.D.	Advisor	09/2005-08/10
Dissertation Title: Functional Data Analysis Approaches for genotype-phenotype Association Studies from Next-generation Sequencing. Assistant Professor, The University of New Mexico				
8. Shenyang Fang	Biostatistics	Ph.D.	Advisor	01/2007-12/08

Dissertation Title: Information Bottleneck Method for Genome Association Studies in Framingham Population and a Collaborative Association Study of Psoriasis
Associate Professor, MD Anderson Cancer Center

9. Jinying Zhao	Biological Science	Ph.D.	Advisor	09/1999-05/05
Dissertation Title: Nonlinear Test for Genetic Studies of Complex Disease Professor, University of Florida				
10. Akey, Joshua,	GSBS	Ph.D.	On-line Supervisor	09/1998-12/02
Professor, Lewis-Sigler Institute for Integrative Genomics, Princeton University				
11. Nan Lin	Biostatistics	Ph. D.	Advisor	05/2013-05/2018
Associate Manager, Regeneron Pharmaceutical				
12. Xuehan Ren	Biostatistics	Ph. D.	Advisor	08/2013-03/2016
13. Junhai Jiang	Biostatistics	Ph. D.	Advisor	08/2013-01/2015
14. Lian Lin	Biostatistics	Ph.D.	Advisor	08/2009-
15. Pengyi Gu	Biostatistics	Ph.D.	Advisor	09/2013-05/2020
16. Shudi Li	Biostatistics	Ph. D.	Advisor	08/2016-08/2020
Dissertation Title: Causal analysis theory and application to Alzheimer's disease (AD) and heart failure (HF) Senior Biostatistician, BMS				
17. Shi Pu	Biostatistics	Ph. D.	Advisor	08/2007-05/2008
18. Tao Xu	Biostatistics	Ph. D.	Advisor	09/2016-Present
19. Rong Jiao	Biostatistics	Ph. D.	Advisor	10/2016-10/2019
Principal Biostatistician at Novartis				
20. Helen Engle	Biostatistics	Ph. D.	Advisor	09/2018-Present
21. Michael W Newlin	Biostatistics	Ph. D.	Advisor	09/2018-Present
22. Jingyan Wang	Biostatistics	Ph. D.	Advisor	09/2018/08/2019
23. Yuanyuan Liu	Biostatistics	Ph. D.	Advisor	09/2017-02/2020
Dissertation Title: PERSONALIZED PREDICTION AND CAUSAL INFERENCE VIA DEEP LEARNING APPROACHES Data Scientist II, PROS				
24. Heping Wang	Biostatistics	Ph. D.	Advisor	09/2017-Present
25. Zouxian Li	Biostatistics	Ph. D.	Advisor	09/2019-Present

PhD dissertation committee

1. Leixin Xia	Biostatistics	Ph.D.	Member	09/2020-Present
---------------	---------------	-------	--------	-----------------

2.	Binjie	Epidemiology	Ph.D.	Member	06/2020-Present
3.	Aschenbrenner, Andrew		Ph.D.	Member	09/2019-Present
4.	Esther Ngan	Biostatistics	Ph.D.	Member	09/2019-Present
5.	Xia Wang	Baylor College of Medicine, Ph. D		Mentor	07/2012-08/2014
6.	Zachry Tore Soens	Baylor College of Medicine, Ph. D		Mentor	09/2014-08/2016
7.	WenJun Zhang	Biostatistics Principal Biostatistician, Regeneron Pharmaceutical	Ph.D.	Member	09/2016-11/2018
8.	Kan Li	Biostatistics	Ph.D.	Member	09/2016-03/2018
9.	Yunxi Zhang	Biostatistics	Ph.D.	Member	09/2016-08/2018
10.	Yi, Misung	Biostatistics	Ph.D.	Member	08/2017-Present
11.	Ho-Lan Peng	Biostatistics	Ph.D.	Member	04/2016-Present
12.	Pervin, Hannah E	Biostatistics	Ph.D.	Member	03/2016-Present
13.	Antonio J Tito	Human Molecular Genetics, Ph. D.		Member	2012-2016
14.	Yulun Liu	Biostatistics	Ph.D.	Member	06/2014-04/2016
15.	Chuan Hong	Biostatistics	Ph.D.	Member	01/2014-04/2016
16.	Jin Su	Biostatistics	Ph.D.	Member	11/2010-04/2016
17.	Hui Peng	Biostatistics	Ph.D.	Member	11/2010-04/2016
18.	Xiang Shu	Biostatistics	Ph.D.	Member	12/2014-04/2019
19.	Xuan Zhang	Biostatistics	Ph.D.	Member	06/2010-04/2015
20.	Hong Wei Tang	Biostatistics	Ph.D.	Member	05/2010-04/2015
21.	Caimiao Wei	Biostatistics	Ph.D.	Member	09/2008-05/2015
22.	Jiabu Ye	Biostatistics	Ph.D.	Member	05/2015-04/2019
23.	E Lin	Biostatistics	Ph.D.	Member	10/2010-11/2014
24.	Taebeom Kim	Biostatistics	Ph.D.	Member	10/2012-11/2014
25.	Wei Qiao	Biostatistics	Ph.D.	Member	05/2010-11/2014
26.	Renke Zhou	Biostatistics	Ph. D.	Member	10/2008-12/2014
27.	Vineetkumar Kharat	Epidemiology	Ph.D.	Member	03/2013-05/2014
28.	Manandhar, Pratik	Biostatistics	Ph.D.	Member	09/2013-05/2014
29.	Nianxiang Zhang	Biostatistics	Ph.D.	Member	08/2010-08/2013
30.	Suyu Liu	Biostatistics	Ph.D.	Member	09/2009-08/2013
31.	Yi-Ju Chiang	Biostatistics	Ph.D.	Member	09/2009-08/2013
32.	Min Yi	Biostatistics	Ph.D.	Member	09/2009-08/2012
33.	Shangying Liang	Biostatistics	Ph.D.	Member	10/2009-08/2013
34.	Yung Fei Wang	Biostatistics	Ph.D.	Member	10/2008-08/2012
35.	Lin Huo	Biostatistics	Ph.D.	Member	10/2008-02/2009
36.	Jun Liu	Biostatistics	Ph. D.	Member	10/2008-04/2012
37.	Yu-Li Ling	Biostatistics	Ph.D.	Member	07/2008-04/2012
38.	Furong Huang	Biostatistics	Ph.D.	Member	09/2006-08/2012
39.	Jacy Crosby	Biostatistics (GSBS)	Ph.D.	Member	06/2008-09/2010
40.	Bo He	Biostatistics	Ph.D.	Member	09/2008-08/2013
41.	Ho, Chung-Han	Biostatistics	Ph.D.	Member	10/2008-08/2013
42.	Xuemin Gu	Biostatistics	Ph.D.	Member	09/2009-08/2012
43.	Jang H Yun	Biostatistics	Ph.D.	Member	06/2008-08/2013

44.	Yaji Xu	Biostatistics Mathematical Statistician, FDA	Ph.D.	Member	09/2005-05/2010
45.	Ping Liu	Biostatistics	Ph.D.	Member	09/2009-08/2012
46.	Yufeng Zhang	Biostatistics	Ph.D.	Member	08/2008-08/2012
47.	Sijin Wen	Biostatistics	Ph.D.	Member	08/2005-05/2009
48.	Qing Zhang	Biostatistics Statistician, CDC	Ph.D.	Member	08/1998-05/2006
49.	Hui Zhao	Biostatistics	Ph.D.	Member	2003-05/2007
50.	Associate Professor, MD. Anderson Cancer Center				
51.	Yiqun Zhang	Biostatistics	Ph.D.	Member	2004-2011
52.	Liu, Xiaoming	GSBS Associate Professor, College of Public Health, the University of South Florida	Ph.D.	Member	09/2002-08/06
53.	Mak, Solida	GSBS	Ph.D.	Member	09/2003-06/08
54.	Chung, Charles	GSBS	Ph.D.	Member	09/2003-05/07
55.	Dayna Tirpak	GSBS	Ph.D.	Member	09/1998-12/02
56.	Kun Zhang	GSBS Professor, Chair, Dept of Bioengineering, University of California at San Diego	Ph.D.	Member	09/1999-05/03
57.	Alanna Morrison	GSBS Professor, Chair, UTSPH	Ph.D.	Member	09/1997-05/01
58.	Zhongming Zhao	GSBS	Ph.D.	Member	09/1006-04/2000
59.	Professor, University of Texas Health Science Center at Houston.				
60.	Andrei Rodin	GSBS Associate Professor, City of Hope	Ph.D.	Member	09/1995-04/1999
61.	Grier P. Page	GSBS Senior statistical geneticist, RTI International	Ph.D.	Member	08/1993-04/1998
62.	Hong Yan Xu	GSBS Professor, Medical College of Georgia	Ph.D.	Member	2001-2003
63.	Qiqing Wang	GSBS	Ph.D.	Member	2001-2003
64.	Xi Zhou	GSBS	Ph.D.	Member	2001-2003
65.	John C. Huber Jr.	Biological Science Associate Professor, Texas A&M University	Ph.D.	Member	2000-2004

Primary MS thesis advisor

1.	Shudi Li	Biostatistics	M.S	Advisor	08/2015-2016
2.	Yuefei Wang	Biostatistics	M.S.	Advisor	09/2016-05/2017
3.	Wenqian Liang	Biostatistics	MS.	Advisor	09/2015-04/2016
	Thesis Title: Image classification using segmentation, functional principal component analysis and sparse sufficient dimension reduction				
4.	Jin Yu	Biostatistics	M.S.	Advisor	08/2013-05/2015
	Thesis Title: Construct gene correlation network with NGS by cloud computing				
5.	Ruling Liu	Biostatistics	M.S.	Advisor	08/2012-05/2015
6.	Jialing Zhu	Biostatistics	M.S.	Supervisor	01/2011-07/2014
	Thesis Title: GIS mapping and gene-environment interaction.				

7.	Jin Li	Biostatistics	M.S.	Advisor	11/2010-12/2012
8.	Yang Han	Biostatistics	M.S.	Advisor	08/2010-12/2012
	Thesis Title: Identification of genes associated with quantitative traits involved in cardiovascular disease and lipoprotein metabolism.				
9.	Yue Liao	Biostatistics	MPHBST	Advisor	09/2007-05/2009
10.	Thesis Title: Genome-wide Gene-Gene Interaction Analysis for Cardiovascular Disease				
11.	Yun Zhu	Biostatistics	M.S.	Advisor	08/2010-12/2011

MS students thesis committee

12.	Bing Yu	Epidemiology	M.S.	Member	09/2009-08/2011
13.	Henry Xingzhi Song	Biostatistics	M.S.	Member	11/2010-08/2012 57
14.	Leslie Rogers	GSBS	M.S.	Member	2000
15.	Yu-li Lin	Biostatistics	M.S.	Member	10/2007-08/10
16.	Fei Jiang	Biostatistics	M.S.	Member	11/2008-05/10
17.	Lihong Long	Epidemiology	M.S.	Member	09/2007-08/2009
18.	Kaiyan Jing	Biostatistics	M.S.	Member	09/2007-04/09
19.	Jiangong Niu	Biostatistics	M.S.	Member	05/2010-04/2012
20.	Yun Gong	Biostatistics	M.S.	Member	05/2010-04/2012
21.	Melissa Lee	Epidemiology	M.S.	Member	05/2007-04/2009
22.	Yong Quan Dong	Biostatistics	M.S.	Member	2005-05/07
23.	Xuemin Gu	Biostatistics	M.S.	Member	08/2007-05/09
24.	Yong Dong	Biostatistics	M.S.	Member	09/2005-12/07

MPH Advisor

25.	Amit Jain	MPH	Advisor
26.	Vivekananda Varma Datla	MPH	Advisor

MPH students committee

27.	Kala Yogesh Kamdar	MSEPIM	Member
28.	Maximea Erasmea Vigilant	MPHOCN	Member
29.	Shyam Mohan reddy Teegala	MPHHLP	Member
30.	Erin Renee Steinkamp	MPHHLP	Member
31.	Melissa Anne Lee	MSEPIM	Member
32.	Jennifer Diane Torres	MPHHLP	Member

CONSULTANT EXPERIENCE

07/2008- Department of Mathematics, University of South Alabama
09/00- Division of Rheumatology, Medical School, University of Texas Health Science Center at Houston
09/99-12/07 Institute of Molecular Medicine for the Prevention of Human Diseases, University of Texas Health Science at Houston
09/00-08/02 Department of Environmental Health, University of Cincinnati
11/00-12/07 Department of Epidemiology and Public Health, School of Medicine, Yale University
10/99-08/03 Department of Pathology, Medical School, University of Florida
09/00-08/02 Member of Scientific Advisory Board, Cangen International Corporation, California

ACTIVITIES IN PROFESSIONAL/SCIENTIFIC SOCIETIES

C-Chair, Programming Committee, 2020 ICSA Applied Statistics Symposium

May 17-20, 2020, Houston, Texas.

Organizing Committee Member, 2nd International Hematologists Summit (HIS-2019), May 30-31, 2019 at Nice, France.

Organizing Committee and Leadership Committee, Genome San Diego 2018, Nov 26-28, 2018, San Diego, USA

Program Committee, 4th International Conference on Big Data and Information Analytics, December 17-19, 2018, Houston, Texas

Organizer, Session in New Generation of genomic, epigenomic, and imaging data analysis in mental disorder studies. The 10th ICOSA International Conference on Global Growth of Modern Statistics in the 21st Century, December 19-22, 2016, Shanghai, China.

Organizer, Session in Intelligent Learning and Integrative Analysis in Cancer Research. The 10th ICOSA International Conference on Global Growth of Modern Statistics in the 21st Century, December 19-22, 2016, Shanghai, China.

Member of Organizing Committee, International Conference on Transcriptomics, July 27-29, 2015, Orlando, Florida.

Member of Organizing Committee, The 3rd Genetics and Genomics Conference (GC 2014), December 26-28, 2014 in Suzhou, China.

Chair, Session on mixed effect models for longitudinal, functional, and spatial data, Joint Statistical Meeting-2014, August 2-7, 2014, Boston, MA, USA.

Organizing Committee Member for Genomics-2013, November 12-14, 2013 Chicago-North Shore, USA.

Program Committee. International Conference on Genetic Engineering & Genetically Modified Organisms. August 12-14, 2013, University, North Carolina, USA.

Chair, Session on missing data and data with measurement bias. ENAR, March 10-13, 2013 Spring Meeting - Orlando, Florida.

Poster judge, ENAR, March 10-13, 2013 Spring Meeting - Orlando, Florida.

Chair, Statistical Genetics Session. International Conference and Exhibition on Biometrics and Biostatistics. 5-7 March 2012

Program Committee. The 4th International Congress on Image and Signal Processing. 15-17 October 2011, Shanghai, China.

Program Committee. The 6th IASTED International Conference on Advances in Computer Science and Engineering. March 15 – 17, 2010, Sharm El Sheikh, Egypt.

Program Committee Member , The 2nd International Conference on Image and Signal Processing (CISP'09), October 17-19, 2009, Tianjin, China.

Organizer, Topic Contributed Session: Application of Functional and Dynamic Data Analysis to Biomedical Research, The Joint Statistical Meetings (2009), Washington, DC, August 1-6, 2009.

Program Committee Member, The IASTED International Symposium on Computational Biology and Bioinformatics (~CBB 2008~), November 16-18, 2008 Orlando, Florida, USA.

Program Committee Member, The 10th International Conference on Molecular Systems Biology (ICMSB 2008), Feb 25-28, 2008, Diliman, Philippines.

Organizer, Session: Advances in Statistical and Population Genetics, and Computational Systems Biology. The 15th International Conference of Forum for Interdisciplinary Mathematics on Interdisciplinary Mathematical & Statistical Techniques, Shanghai, P.R. China, May 20-23, 2007.

Chair, Session 1: Biosystem and Structure, The IASTED International Conference on Computational Systems Biology. November 13-14, 2006, Dallas, TX.

Chair, program Committee, The First International Conference on Computational Systems Biology, July 20-23, 2006, Shanghai, China.

Co-Chair, Local Organizing Committee, the First International Conference on Computational Systems Biology, July 20-23, 2006, Shanghai, China.

Program Committee Member, The Fourth International Conference on Bioinformatics (BIOINFO 2005), September 22-24, 2005, Busan, Korea.

Best Paper Award Committee Member, The Fourth International Conference on Bioinformatics (BIOINFO 2005), September 22-24, 2005, Busan, Korea.

Co-chair and organizer, Understand the Principle and Usefulness of Bioinformatics, The International Symposium on Genomic Medicine, June 28-30, 2005, Shanghai.

EDUCATIONAL OR VOLUNTARY ORGANIZATION PARTICIPATION

Co-Organizer and Lecturer, National Workshop on big genomic and epigenomic data analysis and its application to precision medicine (July 2-9, 2017, Chengdu, China).

Co-Organizer and Lecturer, National Workshop on Statistical Genetics, Systems Biology and Molecular Evolution (June 20-25, 2016, Shanghai, China).

Co-Organizer and Lecturer, National Workshop on Statistical Genetics, Systems Biology and Molecular Evolution (June 1-9, 2015, Xining, China).

Co-Organizer and Lecturer, National Workshop on Statistical Genetics, Systems Biology and Molecular Evolution (August 22-29, 2014, Shanghai, China).

Co-Organizer and Lecturer, National Workshop on Statistical Genetics, Systems Biology and Molecular Evolution (November 3-7, 2013, Xiamen, China).

Co-Organizer and Lecturer, National Workshop on Statistical Genetics, Systems Biology and Molecular Evolution (July 2011, Xiamen, China).

Co-Organizer and Lecturer, National Workshop on Statistical Genetics, Systems Biology and Molecular Evolution (July 21-25, 2009, Kun Ming, China).

Co-Organizer and Lecturer, National Workshop on Large Scale Genotyping and Linkage Analysis (July, 1997, China).

Co-Organizer and Lecturer, National Workshop on Statistical Genetics (January 3-8, 2005, China).

Lecturer, Workshop on Genome-wide association studies (July, 2006, Fudan University).

Director, the Theoretical Systems Biology Laboratory, School of Life Science, Fudan University, China (2004-).

Judge, 8th Annual Mini-Symposium, Program in Molecular and Human Genetics, Graduate School of Biomedical Science (2004).

Journal Club Organizer in Genetics (2000).

Interviewer for Graduate Student Candidate, Graduate School of Biomedical Sciences (2000- present).

DEPARTMENT/SCHOOL COMMITTEES AND ACTIVITIES

Data Science Education Committee (2019-2020)

Data Science Faculty Search Committee (2017-2019)

Methodology Committee (2017-2019)

Six Year Review Committee (2018-2019)

Mentor: Goo Jun (2017-Present)

GSBS poster judge (2018)

3 Year Review Committee (2017)

GSBA, Student Scholarship Committee (2015-2018)
Six Year Review Committee (2015- 2016)
IFC the Administrative Affairs Subcommittee (2014-2016)
IFC Faculty Status, Rights & Responsibilities Committee (2013)
GSBA, Student Scholarship Committee (2015-2016)
GSBA, Biostatistics and Bioinformatics Admission Committee (2012-2016)
Admission Committee in Division of Biostatistics (2012-2014)
Big Data Analysis Faculty Search Committee (2013-2015)
Faculty Development Leave Committee (2012)
Burks Scholarship Selection Committee (2011-2016)
Faculty Council Representative in the SPH (2009-2015)
Inter Faculty Council (IFC) Representative (2010-2016)
Member of Curriculum Committee (2006- 2009)
Member of Bioinformatics Proposal Committee (2006-2009)
Member of Faculty Annual Report Evaluation Committee (2006)
Member of Biological Science Admissions Committee (2001-2004)
Member of Faculty Annual Report Evaluation Committee (2003)
Member in M. D. Anderson Genomics Program Steering Committee (1998-2001)
Member of Faculty Annual Report Evaluation Committee (1999)
