

GRE Waivers and Exemptions

In some circumstances, your requirement to submit GRE or MCAT scores may be waived. Please be advised that GRE/MCAT scores are used by the Admissions Committee to aid admissions decisions in the determination of qualified recipients of competitive scholarships. If you are looking to secure a scholarship, we recommend submitting your scores even if you qualify for an exemption. Applicants for whom a GRE/MCAT has been waived are ineligible for new student scholarship consideration.

GRE or MCAT scores may be waived if the applicant:

- holds an earned doctoral letter degree from a U.S. institution
- is an ECFMG certified physician practicing medicine in the U.S. (i.e. active in a medical residency program or clinical practice)

Please email SPHAdmissionsTestWaiver@uth.tmc.edu with your waiver request.
