FRONTIERS IN PUBLIC HEALTH, DECEMBER 2021
Strategies to estimate prevalence of SARS-CoV-2 antibodies in a Texas vulnerable population: Results from Phase I of the Texas Coronavirus Antibody REsponse Survey

SSRN, JUNE 2021
Estimated prevalence of SARS-CoV-2 antibodies in the Texas pediatric population

PLOS ONE, SEPTEMBER 2022
Methodology to estimate natural- and vaccine-induced antibodies to SARS-CoV-2 in a large geographic region

THE JOURNAL OF INFECTIOUS DISEASES, MAY 2022
Antibody duration after infection from SARS-CoV-2 in the Texas Coronavirus Antibody REsponse Survey

PEDIATRICS, MAY 2022
Durability of SARS-CoV-2 antibodies from natural infection in children and adolescents

THE PEDIATRIC INFECTIOUS DISEASE JOURNAL, OCTOBER 2022
Comparison of persistent symptoms following SARS-CoV-2 infection by antibody status in nonhospitalized children and adolescents

THE JOURNAL OF INFECTIOUS DISEASES, FEBRUARY 2023
Incidence and predictors of breakthrough and severe breakthrough infections of SARS-CoV-2 after primary series vaccination in adults: A population-based survey of 22,575 participants

CHILDREN, APRIL 2023
SARS-CoV-2 serostatus and COVID-19 illness characteristics by variant time period in non-hospitalized children and adolescents

PEDIATRIC RESEARCH, OCTOBER 2023
Long-term immune response to SARS-CoV-2 infection and vaccination in children and adolescents

OPEN FORUM INFECTIOUS DISEASES, NOVEMBER 2023
Incidence of SARS-CoV-2 breakthrough infections after vaccination in adults: A population-based survey through March 1, 2023

PLOS ONE, MARCH 2024
Prozone masks elevated SARS-CoV-2 antibody level measurements

PLOS ONE, MAY 2024
Baseline characteristics of SARS-CoV-2 vaccine non-responders in a large population-based sample
