

CURRICULUM VITAE

ALEXANDRA E.M. VAN DEN BERG, PhD, MPH

(formerly Evans)

Professor of Health Promotion and Behavioral Sciences

Associate Director - Michael & Susan Dell Center for Healthy Living

The University of Texas School of Public Health - Austin Regional Campus

1616 Guadalupe Street, Suite 6.300

Austin, TX 78701

Alexandra.E.Vandenberg@uth.tmc.edu

EDUCATION AND TRAINING:

Postdoctoral Fellowship, National Cancer Institute 1998-2000

School of Public Health, University of Texas, Houston TX

(Mentors: Deanna Hoelscher, PhD, RD, LD, CNS and Nell Gottlieb, PhD)

PhD, Health Education 1992-1997

Kinesiology and Health Education, University of Texas, Austin TX

(Advisors: Nell Gottlieb, PhD and Elizabeth Edmundson, PhD)

MPH, Community Health Education 1988-1990

School of Public Health, University of Texas, Houston TX

BS, Scientific Nutrition 1984-1988

Texas A&M University, College Station TX

PROFESSIONAL EXPERIENCE:

Professor - Health Promotion and Behavioral Sciences 2017 - present

University of Texas (UT) School of Public Health, Austin Regional Campus

Associate Director- Michael & Susan Dell Center 2017-present

UT School of Public Health, Austin Regional Campus

Member of Austin Regional Campus Leadership Team 2015-present

UT School of Public Health, Austin Regional Campus - Research Affairs

Associate Professor (tenured 2014) 2011-present

UT School of Public Health, Austin Regional Campus

Division of Health Promotion and Behavioral Sciences

Faculty Admissions Coordinator 2010-Jan 2011

UT School of Public Health, Austin Regional Campus

Research Fellow UT at Austin - Division of Kinesiology and Health Education	2009-present
Research Associate UT at Austin – School of Nursing	2006-2009
Adjunct Faculty University of South Carolina - Dept of Health Promotion, Education, and Behavioral Sciences	2006-2009
Associate Professor UT School of Public Health, Austin Regional Campus (<i>Non-tenure track</i>) Division of Health Promotion and Behavioral Sciences	2006-2011
Assistant Professor University of South Carolina - Division of Health Promotion, Education, and Behavioral Sciences	2000-2006

HONORS AND AWARDS:

Excellence in Community Service Award <i>UTHealth School of Public Health</i>	2016
Vice Chair for Sustainable Food Policy Board <i>City of Austin and Travis County, Texas</i>	2012-present
National Extension Diversity Award from U.S. Department of Agriculture's <i>National Institute of Food and Agriculture</i>	2015
UT School of Public Health Mentoring Award (awarded with Dr. Hoelscher as mentor)	2015
Member of the 2014 Dannon Nutrition Leadership Institute	2014
Texas A&M AgriLife Extension Superior Service Award	2014
Travel grant to attend the NIH Winter Institute for Community-based Participatory Research Approaches to Sustaining Healthy Families and Multicultural Communities	2010
Invited to <i>Inaugural Salud America Scientific Summit</i> as a Latino Health Research Scholar	2009
Elected Fellow of the American College of Nutrition	2008-present
Recipient, Crystal Quill Award <i>University of Texas School of Public Health, Austin Regional Campus</i>	2008-present
Recipient, University of South Carolina James A Keith Excellence in Teaching Award	2005
Recipient, Dean's Faculty Scholar in Public Health Preparedness	2005
Elected member, Delta Omega Society	2003-present
Recipient, Provost's Teaching Development Grant	2000
Member of Phi Kappa Phi	1994-1997

PUBLICATIONS IN PEER-REVIEWED JOURNALS:

'**' indicates postdoctoral or graduate student. **Evans** is former last name.

83. Valmond J,* Diamond P, Byrd T, **Evans A**, Saxton D, Hoelscher D. Association between water consumption and overweight/obesity among 8th and 11th grade students in Texas, USA. Submitted to Journal of Adolescent Health (in press).

RESEARCH SUPPORT:

Current Funded Research:

Foundation for Food and Agricultural Research

2018- 2021

Evaluation of food access strategies in Austin to improve healthy food access and food security

The overall goal is to measure the collective impact of strategies increasing healthy food access in low-income communities. Data will be used to create an agent-based model which will be able to predict individuals' behaviors related to food purchasing and consumption.

PI: Sustainable Food Center

van den Berg role: PI of Evaluation Subcontract: (20%) (Direct cost: Subcontract: \$721,000; grant: \$1,000,000)

Michael & Susan Dell Foundation 2018-2022

Michael & Susan Dell Center for Healthy Living

As the Co-Director of the Center, I assist the Director (Dr Hoelscher) with day-to-day activities related to running the Center and with policy research.

PI: Hoelscher

Van den Berg role: Co-Director (15%) (Direct cost \$1,000,000– competitive award)

NIH 1R01HL123865-01A1 2015-2020

“Sprouts”: A nutrition and gardening obesity intervention for Hispanic children

The overall goal of this study is to conduct a randomized controlled community-based gardening, nutrition, and cooking intervention (called “Sprouts”) to improve dietary intake and reduce obesity and related metabolic disorders in predominately Hispanic children and their families living in low-income, rural, food desert communities.

PI: Davis (UT – Austin)

van den Berg role: PI of Evaluation Subcontract: (10%) (Direct cost Subcontract: \$371,000; grant: \$2,500,000)

Michael & Susan Dell Foundation 2013-2020

GO!Austin/VAMOS! Austin (GAVA) Evaluation

The goal of this study is to develop and follow 2 parallel cohorts of 300 families (1 index child and parent) living in an intervention and control community with limited access to healthy food and physical activity opportunities. One community will receive a community-wide intervention while the second community will serve as a comparison community. Variables of interest include obesity-related behaviors such as dietary intake and physical activity behaviors, and environmental factors such as the social and built environment.
van den Berg Role: PI (15%) (\$1,000,700)

City of Austin Jan 2017-Dec 2018

Corner Store/Healthy Food Access Initiative Evaluation

The overall goal is to evaluate the impact of making environmental changes in corner-stores located in low income communities in Austin.

Role: PI (10%) (\$60,000)

St. David’s Foundation 2013-2018

Fitness and Recreational Improvements at Dove Springs District Park as part of the GO!Austin/VAMOS! Austin Initiative

This grant enhances the GO!Austin/VAMOS! Austin Evaluation Study by providing funds to specifically measure the impact of the GAVA initiative on the Dove Springs parks and the health of residents who use the parks.

van den Berg Role: PI (5%) (\$100,000)

Completed Research:

United States Department of Agriculture 2011-2016

Using Family-Focused Garden, Nutrition and Physical Activity Programs to Reduce Childhood Obesity

The Texas Grow Eat Go (TGED) study was a randomized controlled trial study examining the impact of school-based garden and/or physical activity programs on 3rd grade students' dietary and physical activity behaviors and weight status. TGED includes 32 Title 1 elementary schools and approximately 1600 3rd grade students.

PI: Warren (Texas A&M University)

Evans role: PI for Evaluation Subcontract (20%) (Grant: \$5,000,000; subcontract \$1,033,000)

City of Austin

2016-2017

Evaluation of the Austin/Travis County Community Health Improvement Plan Cycle I (January 2012 – June 2016)

Grant to conduct a process and outcome evaluation of the City of Austin Health and Human Services-led Community Health Improvement Plan for City of Austin/Travis County.

PI: Springer, Evans (5%) (\$44,533)

Robert Wood Johnson Foundation

2008-2015

Statewide Evaluation of Childhood Obesity Prevention Policies in Texas: Texas Safe Routes to School & Increased Healthy Food Access for WIC Clients.

The objective of this study is to evaluate 2 state policies related to Safe Routes to School and the new WIC food package.

PI: Hoelscher

Evans Role: Co-Principal Investigator (10%) (\$890,641)

St David's Foundation

2011-2014

Evaluation of Commercial kitchens for KIPP and UT Developmental Elementary Schools

This study measured the impact of school commercial kitchens on children's lunch intake, satisfaction and parents' satisfaction, cost and opportunity for capability building at intervention schools.

Evans Role: PI (10%) (\$143,500)

Michael & Susan Dell Foundation

2012-2013

Food System Level Evaluation

The purpose of this study was to obtain baseline data for the evaluation of local community food systems. This study provided the basis of the current on-going GAVA study.

Evans Role: PI (10%) (\$62,000)

Michael & Susan Dell Center

2012-2013

Examining the feasibility of different strategies to increase access to local vegetables at low-income elementary schools.

In this pilot study we collected feasibility data of implementing school farm stands at Title I elementary schools located in food deserts.

Evans Role: PI (\$2000)

Michael & Susan Dell Foundation

2012-2013

Evaluation of Marathon Kids In-A-Box and Strategies for increasing Parent Involvement via School Organizing (Sprouting Healthy Marathon Kids) & Enhanced Parent Communication.

The purpose of this study was to evaluate the impact of a parent intervention on elementary students' physical activity and fruit and vegetable intake.

PI: Springer

Evans Role: Co-investigator (5%)(\$172,000)

NIH – DHHS: R21HD058201

2009-2012

Low fat entrees and school lunch: Moderators of selection and participation rates.

The purpose of this grant was to use qualitative and quantitative data to determine factors that influence students' selection of low fat entrees for school lunch.

PI: Bartholomew

Evans Role: PI of subcontract (10%)(grant: \$275,000; subcontract \$47,000)

Michael & Susan Dell Center

2011-2012

Understanding adolescents' use of menu labels: Focus groups with high school students.

In this study we used qualitative methods to determine if and how adolescents use menu labels. In addition, we identified how and where menu labeling needs to be present to most effectively help adolescents make healthier choices when eating out.

Evans Role: PI (\$2000)

Michael & Susan Dell Foundation

2010-2011

Evaluation of Sprouting Healthy Communities II.

This study included 3 evaluation activities: 1) a year-long evaluation of Sprouting Healthy Kids (the middle-school Sprouting Healthy Kids intervention); 2) an evaluation of a scaled version of Sprouting Healthy Kids (2010-2011 school year), and 3) evaluation of placement of farmer's markets near WIC clinics in underserved communities. Subcontract with the Sustainable Food Center.

PI: Rutledge

Evans PI of subcontract (10%)(\$350,000; subcontract \$113,500)

Michael & Susan Dell Foundation

2010-2011

Marathon Kids II Evaluation Plan.

The purpose of this study was to evaluate the effects of a combined Marathon Kids/ Sprouting Healthy Kids intervention on elementary students' physical activity and fruit and vegetable intake.

PI: Springer

Evans Role: Co-investigator (8%) (\$326,000)

Texas Department of State Health Services

2010-2011

Texas Diabetes Council Stark Model for Community B.

The purpose of this study was to implement and evaluate a diabetes prevention interventions using local promotoras.

PI: Reininger

Evans Role: Co-investigator (10%) (\$765,000)

Texas Department of State Health Services

2008-2010

SPAN 2008-2009

The goal for this grant was to collect dietary and physical activity related data from a representative sample of 4th, 8th, and 11th grade students and 4th grade student parents in Texas.

PI: Hoelscher

Evans Role: Co-PI (10%) (\$352,000)

2006-2010

Coordinated Approach to Child Health

This study supported the dissemination of the CATCH program (Coordinated Approach to Children's Health), to elementary schools in Travis County, Texas (Austin, Texas).

PI: Hoelscher

Evans Role: Co-investigator (8%)(2,260,000)

Michael & Susan Dell Foundation

2008-2009

Sprouting Healthy Communities I

The purpose of this study was to evaluate the middle school component of the Sprouting Healthy Communities intervention developed by the Sustainable Food Center. The intervention promotes and provides support for the use of fresh, locally-grown fruits and vegetables in school food service operations and provides holistic and experienced food systems education for young people.

PI Rutledge

Evans Role: PI of subcontract (\$350,000; subcontract \$87,000)

Texas Department of Agriculture

2009

An economic evaluation of increasing the scale of breakfast provision in Texas elementary schools

The objective of this study was to examine the relationship between universal breakfast provision and breakfast cost.

PI: Brown

Evans Role: Co-PI (\$50,000)

Centers for Disease Control and Prevention

2005-2009

Adapting a cardiovascular health promotion school-based nutrition intervention for obesity prevention and control – CATCH Nutrition Plus

The primary goal of this study was to revise the original CATCH curriculum which is focused on prevention of cardiovascular risk factors to an obesity prevention program. The revised curriculum will be tested in 8 schools.

PI: Hoelscher

Evans Role: Co-investigator (10%) (\$421,000)

Research Grants completed at the University of South Carolina

National Institutes of Health (R01)

2004-2009

Self-determination for increasing physical activity

The goal of this study was to evaluate the effectiveness of a physical activity after-school program targeting 6th grade middle school students.

PI: Wilson

Role: Co-investigator

Centers for Disease Control and Prevention 2004-2009
Health Promotion and Disease Prevention Research Centers

The major goal of this grant was to expand understanding of the link between physical activity and health status and the interaction between physical activity and the community environments.

PI: Hooker

Role: Co-investigator

The Duke Endowment Foundation 2003-2008
Duke Endowment Wellness Initiative: The ENRICH Project

The major goals of this project were to develop and evaluate tailored environmental interventions to promote healthy eating and physical activity among children living in Children's' Homes.

PI: Saunders

Role: Co-PI

Research Consortium on Children and Families (USC) 2006
Family intervention for improvement of physical activity and dietary behaviors

The primary goal of this study was to collect qualitative data from parents of underserved families to inform intervention development and develop a quantitative instrument measuring the home food and physical activity environment.

PI: Pfeiffer

Role: Co-PI

South Carolina Nutrition Consortium 2004-2005
Evaluation of a health communication-based nutrition intervention for children and their parents: CAMERAS study

The major goal of this project was to increase fruit and vegetable consumption among a group of 4th and 5th graders who attended an after-school nutrition and media literacy program.

Role: PI

Centers for Medicare and Medicaid Services 2003-2005
Navigating the US Health Care System

The major goal of this project is develop, implement, and evaluate a curriculum on navigating the US health care system for ESL students.

PI: Messias

Role: Co-investigator

Centers for Disease Control and Prevention 2002-2003
SIP 7: PRC Nutrition, Physical Activity, and Obesity Network

The purpose of this project was to collaborate with partners in the PRC Obesity prevention network in a 2 year process to develop a national research and intervention agenda for the prevention and control of obesity in the US.

Role: PI

TEACHING EXPERIENCE:

Mentor in Programs

Behavioral Science Education: NIH funded: \$2,482,000
Cancer Prevention and Control

Maternal and Child Health Certificate Program HRSA funded: \$880,000

Transdisciplinary Research Training Grant: NIH T32 Training Program- UT Nursing (Submitted)
Multilevel intervention and Implementation Science Training to address Health Disparities

Courses taught

PH 1232	Public Health Nutrition Practice UT School of Public Health, Austin Regional Campus	2008, 2010-present
PH 1112	Health Promotion Theory and Methods II UT School of Public Health, Austin Regional Campus	2009-present
PH 1237	Current Topics Seminar in Obesity, Nutrition & Physical Activity	2013- present

UT School of Public Health, Austin Regional Campus

PH 1499	Food Policy UT School of Public Health, Austin Regional Campus	Fall 2014, 2016, 2018
HPEB 700	Health Promotion Program Planning University of South Carolina	2001-2005
HPEB 701	Public Health Education Concepts University of South Carolina	Spring 2001
HPEB 752	Public Health Nutrition University of South Carolina	2002-2003, 2005
HPEB 753	Obesity and Eating Disorders University of South Carolina	Fall 2005
HPEB 702	Theoretical Foundation of Health University of South Carolina	Spring 2002
HPEB 754	Maternal and Child Nutrition University of South Carolina	Fall 2004

STUDENT MENTORSHIP:

Doctoral Students – Mentor on Minority Supplement grant:

Deborah Salvo PhD 2016
NIH Research Supplement to Enhance Diversity in Health-Related Research awarded by NIDDK.

Doctoral Students – Primary Dissertation Advisor

Name	Degree	Years	Dissertation title	Current position
