

Amy Scarafile

Rapid Response Team Leader, Bureau of Pollution Control and Prevention, Houston Health Department

Amy Scarafile is the HHD-BPCP Rapid Response Team Leader. She has been with the City of Houston since October of 2018 as a Chemist IV. Although a native of Indiana, she received a Bachelor of Science degree from Eastern Kentucky University in Forensic Science. She has 20 years of scientific knowledge and experience, mainly in the Forensic Toxicology field. Amy provides a unique perspective and approach to the team, as well as creating procedures, adhering to strict guidelines, and operating a variety of instrumentation.

When she isn't thinking about protecting the Environment and you, she and her husband of 18 years can be found alongside a volleyball court supporting two of their three daughters who are both avid players.
