

Southwest Center for Occupational *and* Environmental Health

A NIOSH-funded ERC since 1977

Occupational Epidemiology TRAINEESHIPS

Interested in applying
epidemiologic methods to
studying work-related exposures,
diseases and injuries?

Funded by the CDC National Institute for Occupational Health and Safety, the Southwest Center for Occupational and Environmental Health (SWCOEH) Education and Research Center (ERC) offers competitive traineeships to U.S. citizens or permanent residents PhD in Epidemiology students.

Benefits of the OE traineeships:

- Participate in SWCOEH sponsored activities (e.g., seminars, symposiums, journal clubs, field trips and other interdisciplinary activities with students in other SWCOEH traineeship programs)
- Mentoring by an expert academic advisor affiliated with the Occupational Epidemiology Program
- Annual **\$23,844 full-time stipend**
- **Health insurance**
- **Tuition/fees** for the Occupational Epidemiology Curriculum (*epidemiology major, occupational health breadth, biostatistics minor*)
- **\$2,400 annual travel** funds available to national meetings and SWCOEH activities
- Additional half-time graduate student employment is permitted
- Cubicle space & desktop computer
- Manuscript format of the dissertation
