Q9. Mentor Research Application for Summer 2020 (June 1 - August 7)

Welcome to the UTHealth - Cancer Prevention & Research Institute of Texas (CPRIT) Fellowship in Innovation for Cancer Prevention Research - UTHealth’s training program for undergraduates, pre- and post-doctoral fellowships in cancer prevention.

This program goes beyond being a quality cancer education and career development program to focus on helping those seeking a career in cancer prevention and control research to learn to ask the important research questions, apply cutting-edge methods, and move the field of cancer forward.

We appreciate your willingness to take on the mentorship of one of our undergraduate trainees. This application will help orient you with the goals and expectations of our summer mentors and trainees.

All applications must be submitted by 11:59 PM on Friday, January 17, 2020.

Q10. Faculty Mentor Information

Q1. First name

Lex

Q2. Last name

Frieden

Q11. Phone number

713-797-7116

Q12. E-mail address

lex.frieden@uth.tmc.edu

Q4. School/Campus Affiliation

- UTHealth School of Public Health- Houston
- UTHealth School of Biomedical Informatics
- UTHealth School of Dentistry
Q5. School/Campus Affiliation

TIRR Memorial Hermann

Q13. Research Projects

Each fellow is expected to spend an average of 40 hours/week on his/her research project, organized seminars and innovation generation course.

Applicants will click on the titles of projects they are interested in to see the description. Give your project an inviting name! Acceptable projects do not need to be externally funded.

Q15. Project title

Southwest ADA Center

Q14. Lay summary of the project (100 words maximum). Examples of project descriptions can be found here.

If pasting or deleting text into this field, please make sure to press the space bar after the last word in order to see your accurate word count.

Current cancer treatment modalities have greatly enhanced survivorship for cancer patients. However, most cancer survivors will experience some form of disability due to their disease. Federal laws including the Americans with Disabilities Act (ADA) prohibits discrimination on the basis of disability and require employers to reasonably accommodate their employees. The Southwest ADA Center, based at TIRR Memorial Hermann, is collaborating with the American Institutes for Research and MD Anderson to research employment issues after people receive a cancer diagnosis and their fitness for vocational rehabilitation as they return to work or enter the employment setting for the first time.
Q16. Project will require contact with:

- Public: Yes
- Patients: No
- Biological samples: No
- Animals: No
- None of these: No

Q17. Does the project require IRB approval?

- Yes
- No

Q18. If yes, please provide the IRB number below.

Q19. Does the project have a Laboratory Safety Protocol?

- Yes
- No

Q20. If yes, please provide the Protocol Number below.

This question was not displayed to the respondent.

Q21. Will the summer fellow be added to the protocol?

- Yes
- No

Q22. End Products of Summer Fellowship

Q23. End products for all Fellows:
1. Complete a project explicitly using the tools of innovative thinking.
2. Prepare and present a research poster on their project, including how you applied tools for innovative thinking.
3. Participate in the 90-second elevator speech competition.

Q25. Project-specific end products (determined by Mentor):
Examples:
1. GIS map to track whether and other environmental conditions for day laborer “corners” throughout Houston
1. Training curriculum on cancer survivorship, disability rights, and work issues
2. Educational material for clinicians and social workers on common employment issues
3. Educational pamphlet/resource list for survivors related to employment rights

Q27. Fellows' Activities

Q28. Activities for all fellows:
1. Complete the Massive Open Online Course (MOOC) on Innovation Generation
2. Participate in weekly MOOC reviews and occasional cancer-related seminars in Houston and/or remotely via ITV
3. Apply the tools of innovative thinking in project discussions
4. Participate in two elevator speech workshops
5. Provide mid-course and final evaluation feedback
6. Meet with the preceptor or representative to discuss the training experience, progress, and challenges
7. Prepare and present a poster on the summer research
8. Present a 90-second elevator speech

Q29. Project-specific Trainee Activities (determined by Mentor):
Example: Fellow will commit to the design and analysis of a mini project YYY as part of a larger project

1. Working with others in a team or group, plan and develop a public information program on cancer survivorship and disability rights. 2. Assist the preceptor and TIRR staff on trainings and presentations 3. Answer inquiries from the public on the ADA 4. Self-selected development project based on personal interest (i.e. paper, survey study, training) 5. Attend weekly team meetings

Q31. Learning Objectives:
By the end of the summer experience, the following objectives should be achieved.

Q32. Objectives for all fellows:
1. Describe and apply the tools of innovative thinking to increase creativity
2. Develop communication and presentation skills

Q33. Project-specific Learning Objectives (determined by Mentor):
Examples:
1. Fellow will be able to write instructions for low literacy audiences
2. Fellow will design a mini project with supervision
Q34. Are there any special fellow characteristics that would be desirable? 
Examples: major, interests, language, or culture

- Interest in health, disability and social justice issues.  
- Interest in legislative and policy analysis, development and reform.  
- Interest in using empowerment as a tool in recovery for cancer survivors.

Q35. Mentor Responsibilities
1. Attend the closing ceremony (elevator speech competition and poster presentation) on August 7, 2020.
2. Provide feedback on the program experience to the program coordinator.
3. Meet with the fellow weekly to discuss training experience, progress, and challenges.
4. Encourage the use of the tools for innovative thinking.
5. Notify Dr. Mullen if the intern is not meeting the agreed upon responsibilities as early as possible to allow problem-solving.
6. Complete an evaluation of the fellow at mid-course and end of the program.

Q36. If you plan to delegate some of the supervision to another lab member, please list their name and contact information so that we can copy them on all correspondence.
